

This session

- Project work
- Group presentations
- Next steps

**Project Work**

Suggestions for presentations:

- What was the original plan for the project?
- What does the project actually do?
- A brief explanation of an interesting piece of code in the project
- One thing that you learned during the project
- A difficult part of the project that you solved
- What would you do if they had more time on the project?

## Group Presentations

## Careers and Further Resources

PyCon is an annual conference for Python developers. Different countries/regions have their own PyCons.

Scholarships are available for under-represented groups

- [pyconuk.org](http://pyconuk.org) (<http://pyconuk.org>).
- [europython.eu](http://europython.eu) ([europython.eu](http://europython.eu)).
- [us.pycon.org](http://us.pycon.org) ([us.pycon.org](http://us.pycon.org)).

Resources for learning more Python:

- Talk Python to Me Podcast
- [RealPython.com \(realpython.com\)](https://realpython.com): Lots of articles and how-tos for Python
- Book deals on Humble Bundle (O'Reilly and NoStarchPress do these one/twice a year)
- Codecademy, Kaggle and DataCamp have free online Python courses

Typical jobs that use Python:

- Software Engineer
- Test Engineer
- Data Scientist

Bootcamps and self-guided learning for careers

**Closing**

 Congratulations
